### **European Office Action**

2. The copy of the European Office Action filed 7/25/05 has been considered. However, it should be noted that essentially the same rejections were set forth regarding the instant application by using the same reference (i.e. Katzke et al). However, the difference exists in the current U.S. claims wherein same have been amended to remove Katzke et al as a viable reference due to its requirement of an adsorbent resin which is hydrophilic and the instant claims call for an adsorbent resin which may adsorb hydrophobic components.
